

FREE INFORMATION · PREPARATION GUIDE

Central Florida Cabinet & Countertop Project Planning Checklist

A timeless, no-pressure worksheet to help homeowners organize their kitchen, bathroom, or commercial-space cabinet and countertop questions before a design conversation.

Prepared for **Counter Impressions**

1016 E Alfred Street, Tavares, FL 32778

(352) 589-4966

1 Begin with a calm plan

Use this worksheet to turn early ideas into a practical conversation about rooms, surfaces, storage, fixtures, measurements, coordination, and written project terms.

A helpful reminder. You do not need every choice finalized. A useful design conversation can begin with rough priorities, examples you like, and the questions you want clarified.

Imagine	Organize	Clarify
---------	----------	---------

1.1 Prepare at your own pace

- ☐ Identify the rooms, surfaces, cabinetry, and related components in the project.
- ☐ Gather room photos and approximate dimensions for discussion, not as professional measurements.
- ☐ List storage, workflow, accessibility, material, finish, edge, sink, faucet, backsplash, and hardware priorities.
- ☐ Note appliances, fixtures, site conditions, timing questions, and other trades that may need coordination.
- ☐ Bring questions about scope, fabrication, installation responsibilities, permits, warranties, and written documentation.

Preparation notes

2 Free information you can use

The short subjects below support both careful reading and quick scanning. Mark the topics that matter now, then return to the others when they become useful.

How to define the scope of a kitchen or bathroom surface project

A planning overview of cabinets, counters, sinks, faucets, backsplash, hardware, and scheduling questions so homeowners can identify which decisions belong together before requesting a project conversation.

Countertop material and finish questions to bring to a showroom visit

A neutral worksheet for comparing appearance, maintenance considerations, seams, edge choices, and how the surface will be used; it encourages checking current manufacturer guidance for a chosen product.

Cabinet layout and storage priorities

A homeowner-friendly framework for noting workflow, storage needs, accessibility preferences, and hardware ideas before considering custom cabinetry.

How to prepare for a countertop measurement and installation discussion

A checklist of information to have ready—room photos, approximate dimensions, appliance and sink plans, and questions about site conditions—without treating it as a substitute for professional measurement.

Coordinating sinks, faucets, backsplash, and counters

An educational guide to the dependency between fixture selections, cutouts, backsplash details, and cabinet/countertop sequencing.

Questions to ask a cabinet and countertop project provider

A practical list covering scope, material options, fabrication, installation responsibilities, examples of completed work, written documentation, and any applicable permits or licensed trades.

2.1 Published services or program areas to confirm

Use this list as a conversation guide. Availability, eligibility, scope, pricing, and location details can change.

- Cabinet design, fabrication, and installation
- Countertop design, fabrication, and installation
- Custom-built cabinets
- Custom countertops
- Custom showers
- Countertop edge profiles

Topics I want to discuss

3 Questions to bring with you

- ☐ Which rooms, surfaces, cabinets, fixtures, and accessories are included in the proposed scope?
- ☐ Which material, finish, edge, storage, workflow, and maintenance questions should I discuss?
- ☐ What measurements or site information may I bring for discussion, and what must a professional verify?
- ☐ How will cabinets, countertops, sinks, faucets, backsplash, appliances, and other trades be coordinated?
- ☐ Which fabrication, installation, permit, warranty, timing, and responsibility terms will be documented?
- ☐ What examples of relevant completed work and current product guidance can the provider share?

My priority question:

Conversation notes:

3.1 Contact and verify current information
